

Posting Board Options

Ergonomic and accessible ways of working

Choose from a range of Posting Boards to best suit your requirements.

The Kardex Remstar Lektriever Electric Lateral File offers a variety of automated, space enhancing solutions that can be supplied with a selection of posting boards to meet employees ergonomic and accessibility requirements. Posting Boards are fitted to the front of units and span the entire width of the unit providing potential work areas for employees.

Adjustable Posting Boards

Mechanically Adjustable Posting Board

This option allows for a vertical movement of the posting board in 2" increments between 29.5" and 39.37". A simple latch system, which when released, allows individual users to easily adjust the posting board to select the correct ergonomic working height for their stature.

Electrically Adjustable Posting Board

In function this option is the same as the mechanical version however just as the name indicates...it is fully automated! By simply pressing the up or down arrow, the posting board will automatically move between seated and standing positions, (30.31" and 39.37") stopping at any increment in between allowing for infinite ergonomic positioning to the scale of any operator. This option also allows for up to 4 pre-set positions in the memory.

The Adjustable Posting Board allows employees the benefit of redefining their work station to their mechanics: improved posture, reduced fatigue, increased productivity, ergonomically enhanced and 100% accessibility for all the media or materials stored in a Lektriever. The safety bar travels up and down with the adjustments made to provide maximum security.

Disabled Persons Accessibility

By linking the adjustable posting boards with the Lektriever this offers equal working opportunities for all operators enabling them to work effectively and making the task fit the person performing it without overly stressing the person's abilities or limitations. This maximizes productivity and efficiency for all employees by reducing worker fatigue and discomfort.

Seated or standing operation at a touch of a button electric work counter moves to meet every users optimal ergonomic requirement.

The Lektriever offers equal working opportunities for all operators.

Static Posting Board Options

Static Posting Board

A full width posting board located in either the seated or standing position. Dependent upon the application and the frequency of file reference either could be the correct option for you Seated 29.5" and standing position 39.37".

Fold-Down Posting Board

A full width posting board in either the seated or standing position that can fold-down freeing up valuable aisle space in an operations area. It can be left flush against the front of the Lektriever until required for use as a work area, lifted and locked into place until the operation is complete, then returned to its flush position.

No Posting Board

If a posting board is not required for a specific application, the Lektriever can be supplied without this feature. This option provides ergonomic accessibility to all stored materials and maximizes the floor space in a limited area for other operations or work-stations.

Posting Board Color and Finish standard options:

- Formica Light Grey
- Stainless steel
- Anti-static ESD
- Other colors and options are available upon request

Folding work counter configured in a seated or standing position from the factory, but can fold down instantly to provide more aisle space.
